# WELCOME TO ESPOSIT NEW CATALOGUE

Today, I would like to tell you a story- don't worry, it's a short one. Have you ever wondered how an interlocking product comes to life?

I asked myself this question a few years ago when I was in a woodworking shop, observing birch panels.

As I watched them, stacked one on top of the other, I wondered how we would be able to create a furniture line using interlocking wood panels.

A design line with the characteristics of an industrial production, infinitely replicable.

This is the most distinctive and remarkable feature of our interlocking products: although they are three-dimensional, their design originates from a two-dimensional arrangement on a wooden panel.

We join panels together.

We think in 2D to create 3D products.

We like to think that interlocking products are always the same, yet the difference lies in how the pieces are assembled to achieve an extraordinary result: a unique and meticulously crafted product.

This is how Esposit, leading brand by the Saglietti Group, was born and it has for years been involved in enhancing and showcasing our clients' products in the best way possible.

The wide range of display furniture and experiential corners you will find on the following pages offers a modern interpretation of the Esposit exhibition concept.

All our furniture is the result of careful design that provides an eco-friendly solution using the interlocking technique.

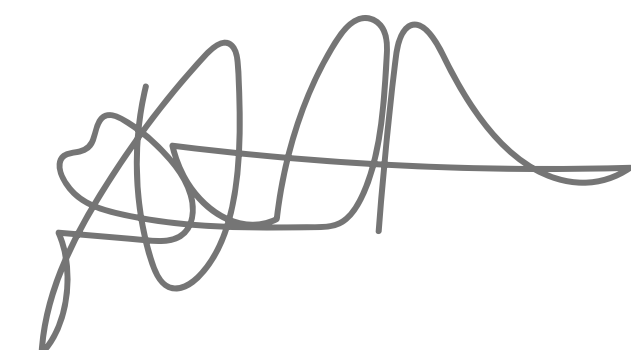

Esposit is simple, lightweight, and sustainable.

A design line that meets our customers' needs, offering customised, sustainable, and long-lasting furniture. Our furniture can be assembled and disassembled even by unskilled personnel, and it can be easily transported thanks to its flat pack design.

We hope we could pique your curiosity and invite you to take a look around the other pages of our catalogue: our doors are always open to welcome everyone.

We look forward to seeing you!

Welcome to the new Esposit catalogue!

## SUSTAINABILITY AT THE HEART OF OUR COMMITMENT

In the production of Esposit line products, we are committed to reducing our environmental impact through the use of certified materials and cutting-edge manufacturing technologies. All our displays are crafted from wood sourced from sustainable forests, ensuring a controlled supply chain that meets FSC® (Forest Stewardship Council) certification standards.

Furthermore, we invest in production processes that minimize waste in our operations and prioritize the use of non-toxic paints and finishes with emissions next to zero. Every Esposit product is designed to be durable and recyclable, promoting sustainable practices at scale for long-term impact.

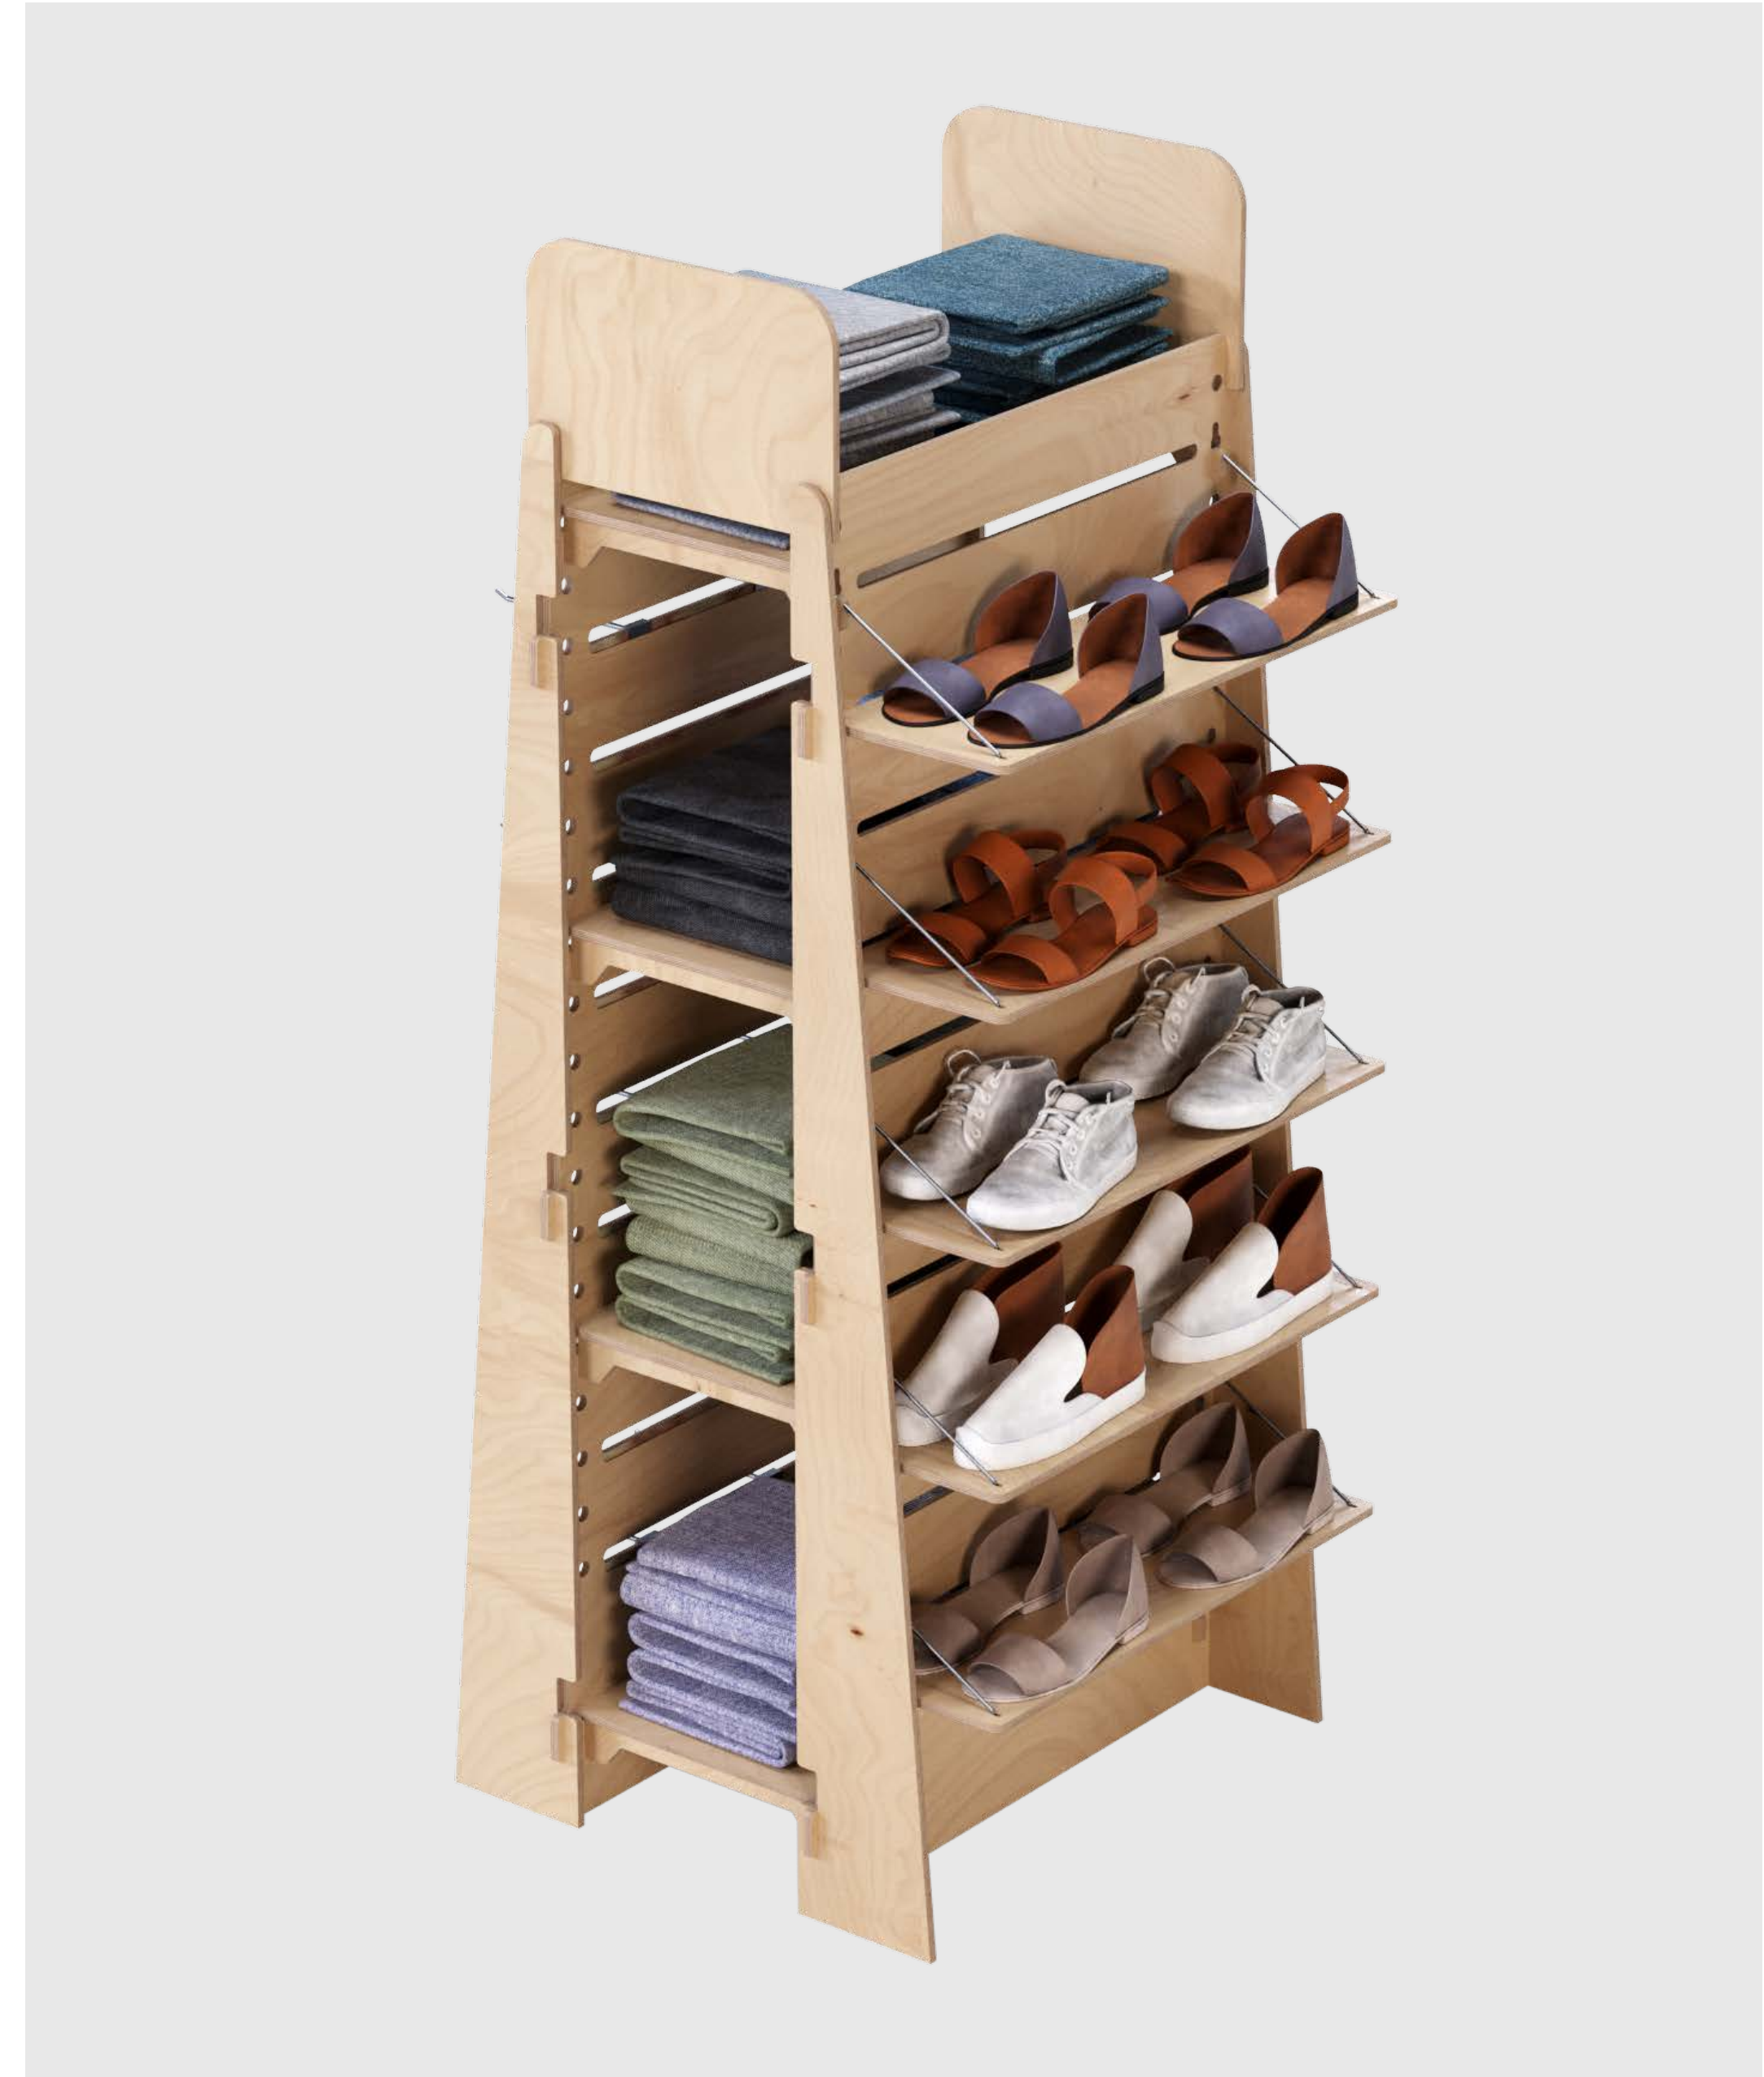

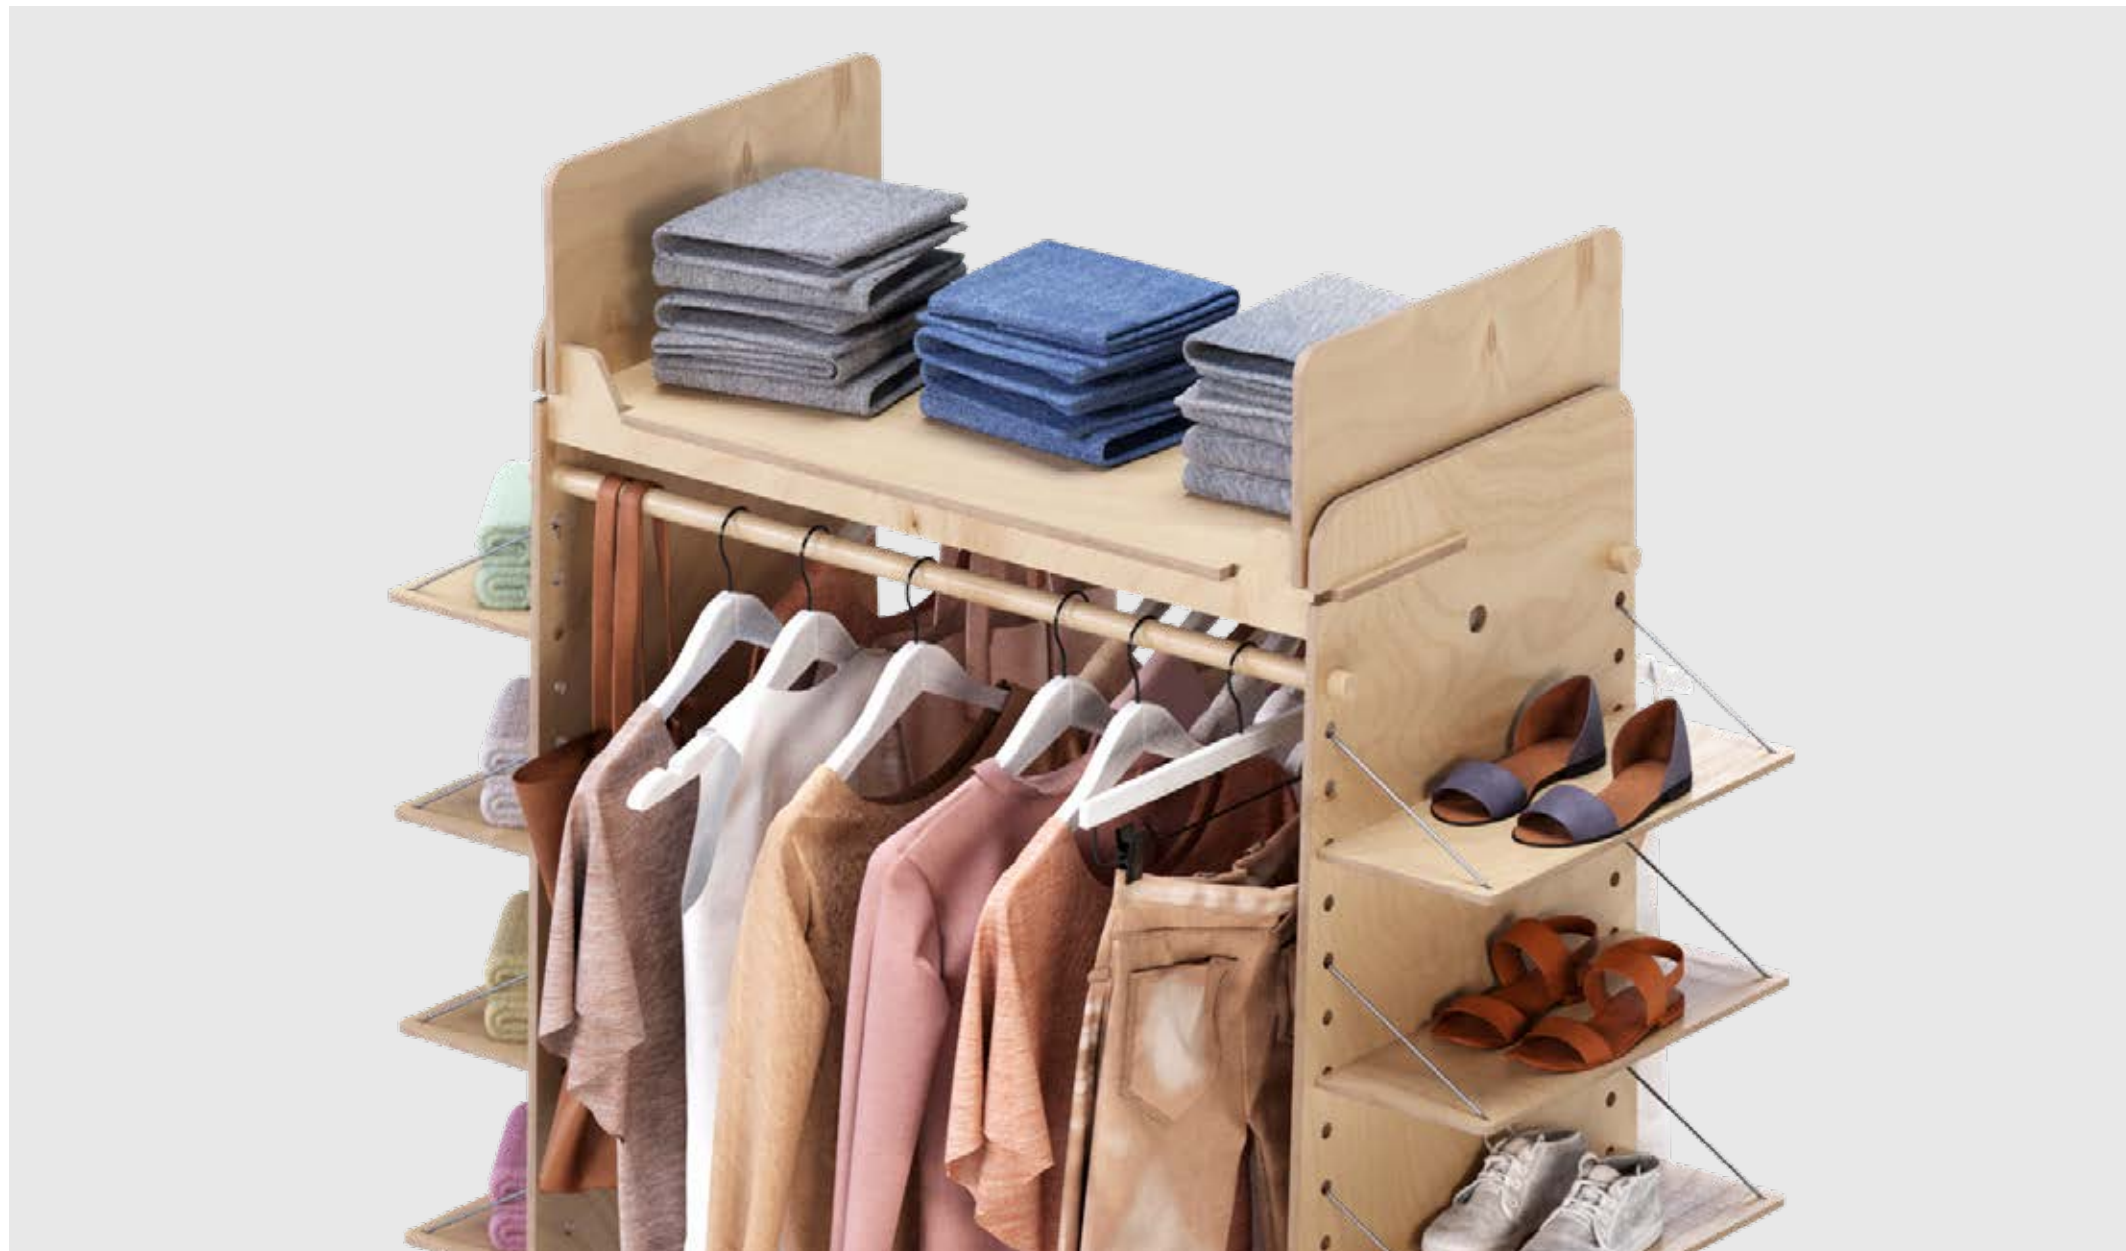

Our goal is to combine innovative design and environmental responsibility, offering display solutions that not only enhance products but also contribute to a more sustainable future. With Esposit, you choose a partner that places environmental sustainability at the heart of every creation.

## CLOTHING AND ACCESSORY RACKS & DISPLAYS

Display your clothing collection impeccably with our adjustable wooden displays. These versatile displays are the perfect choice for fashion shops, offering a blend of elegance and functionality.

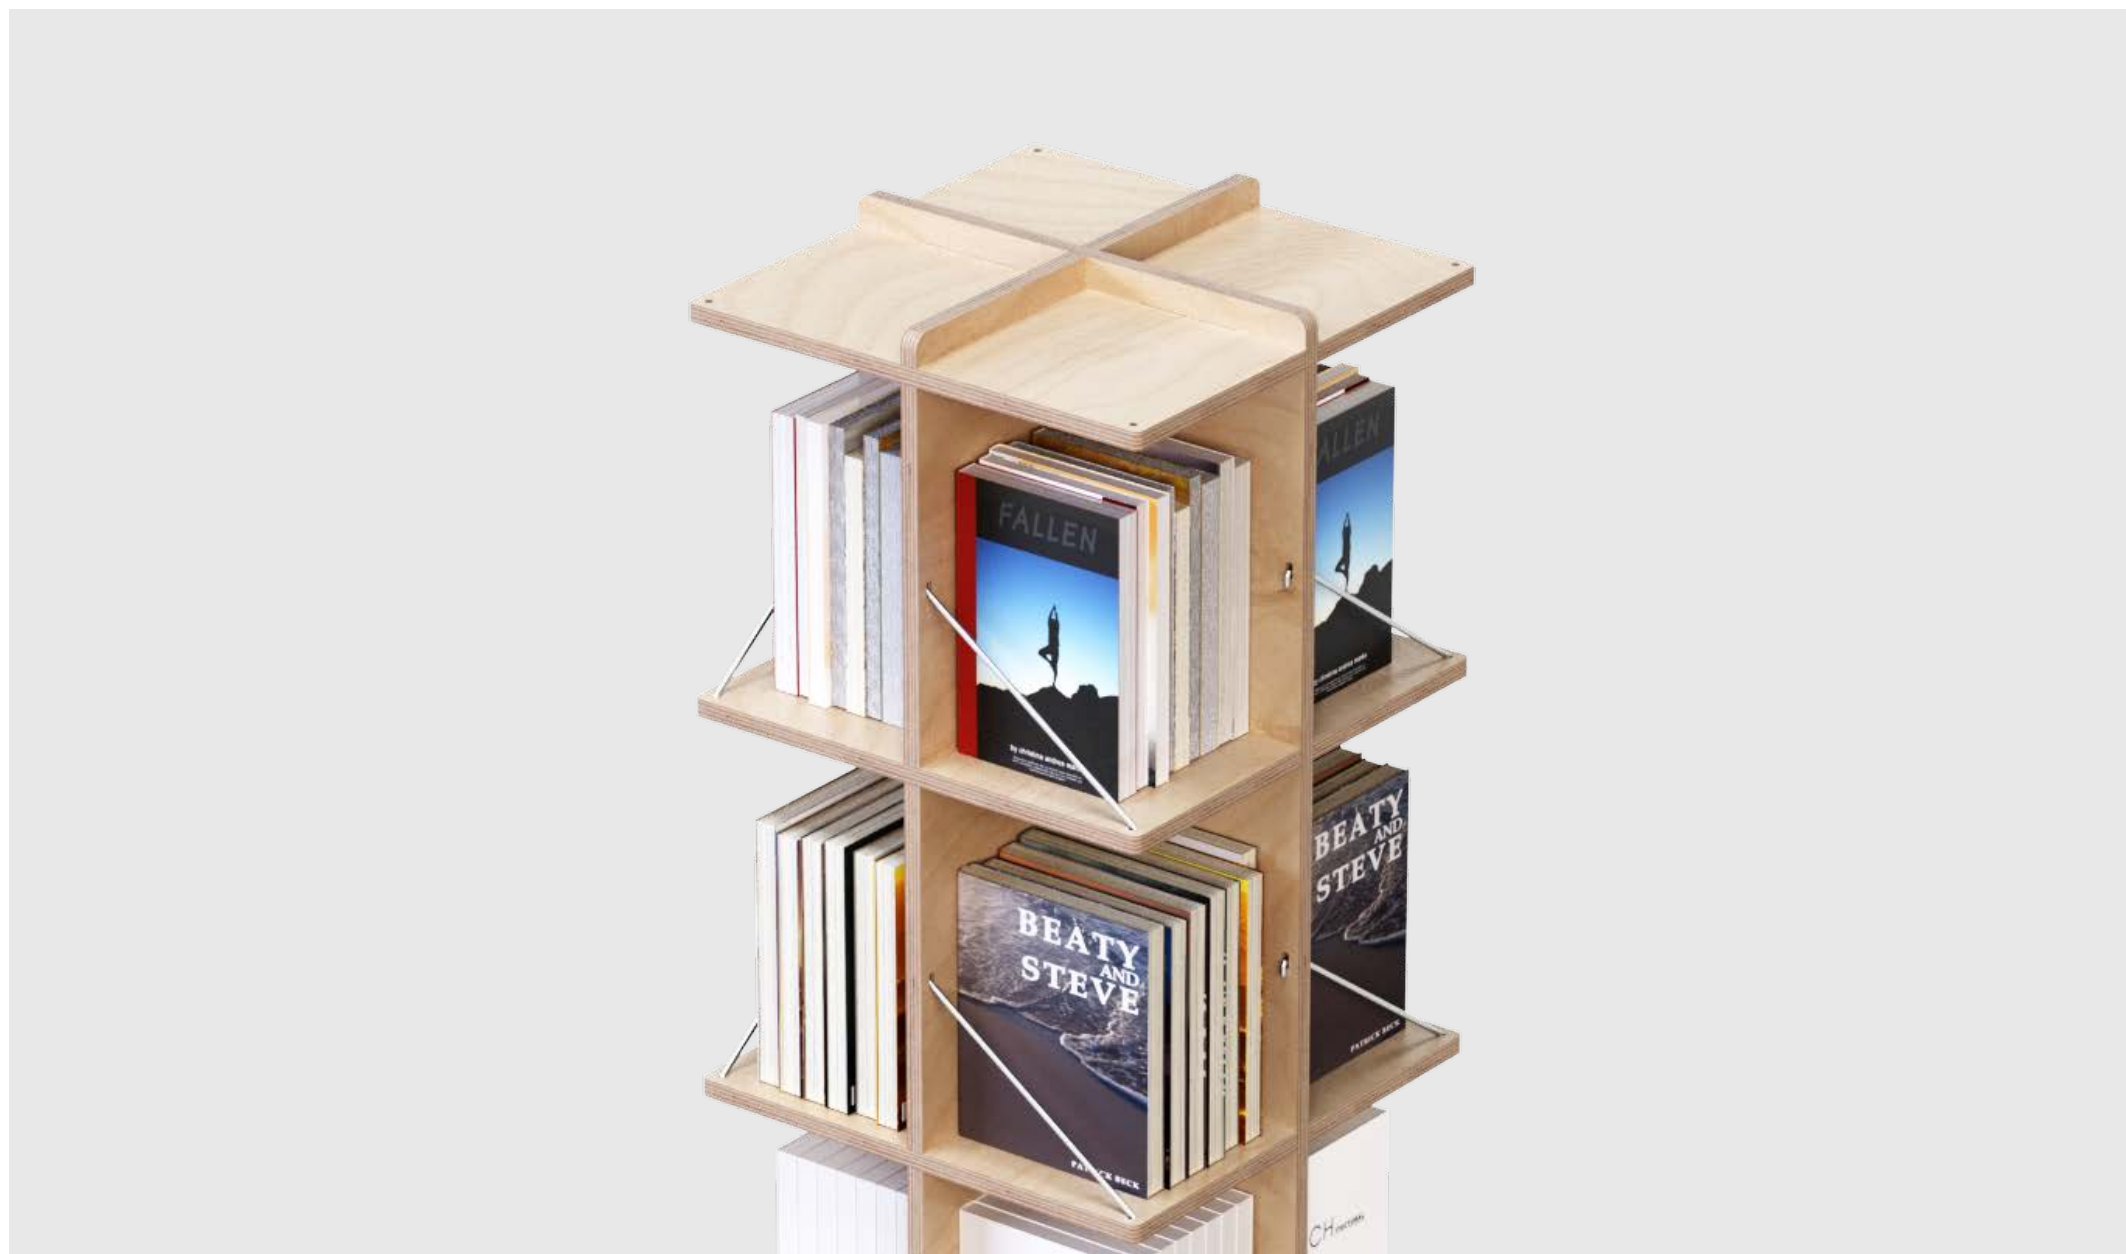

The natural beauty of wood adds warmth and style, enhancing your product presentation both in-store and at trade fairs. With a range of adjustable features, you can customize the display to showcase clothing, shoes, and accessories, ensuring that each item is very attractively presented and remains easily accessible. Your customers will appreciate the opportunity to see the product details clearly while enjoying the aesthetic appeal of the wooden display- always enforcing our claim for sustainability.

## STATIONERY AND LITERATURE HOLDERS & DISPLAYS

Our adjustable wooden stationery and literature displays are an excellent choice, combining the wood's natural beauty with the versatility of an adjustable design. These holders are perfect for showcasing pens, notebooks, diaries, and other stationery items in a neat and appealing manner. The warm tones of the wood add a touch of elegance and natural beauty, while the adjustable height and customizable shelf arrangement make them suitable for items of various size. They provide an organized and inviting shopping experience for your customers.

## FOOD & BEVERAGE DISPLAY RACKS

When it comes to food and beverages, presentation is key. Our adjustable wooden displays bring a touch of elegance and sophistication to the shopping experience. The natural wood creates a warm and inviting atmosphere, making it ideal for showcasing high-quality gastronomic products. Whether it's the simplest loaf or the most sumptuous wine, these displays provide an elegant space to present your products.

With adjustable shelves, you can easily showcase food and beverages of various sizes and shapes, providing an appealing presentation and an easy to use solution. The use of wood adds a sense of authenticity that perfectly complements artisanal and gourmet products.

## MERCHANDISING & GIFT SHOP DISPLAY FIXTURES

Our adjustable wooden displays for the Merchandising and Gift Shop category bring a touch of elegance and modernity to the shopping experience.

The natural wood conveys a sense of authenticity and craftsmanship, perfectly suited for a category where aesthetics is paramount.

These adjustable wooden displays are the ideal choice for showcasing unique art pieces, gifts, and design products.

Designed to accommodate objects of various shapes and sizes, they create a sophisticated and contemporary display space that inspires and delights customers.

## TOY & GAMES DISPLAY STANDS

Children and families will be captivated by our adjustable wooden toy and games display stands.

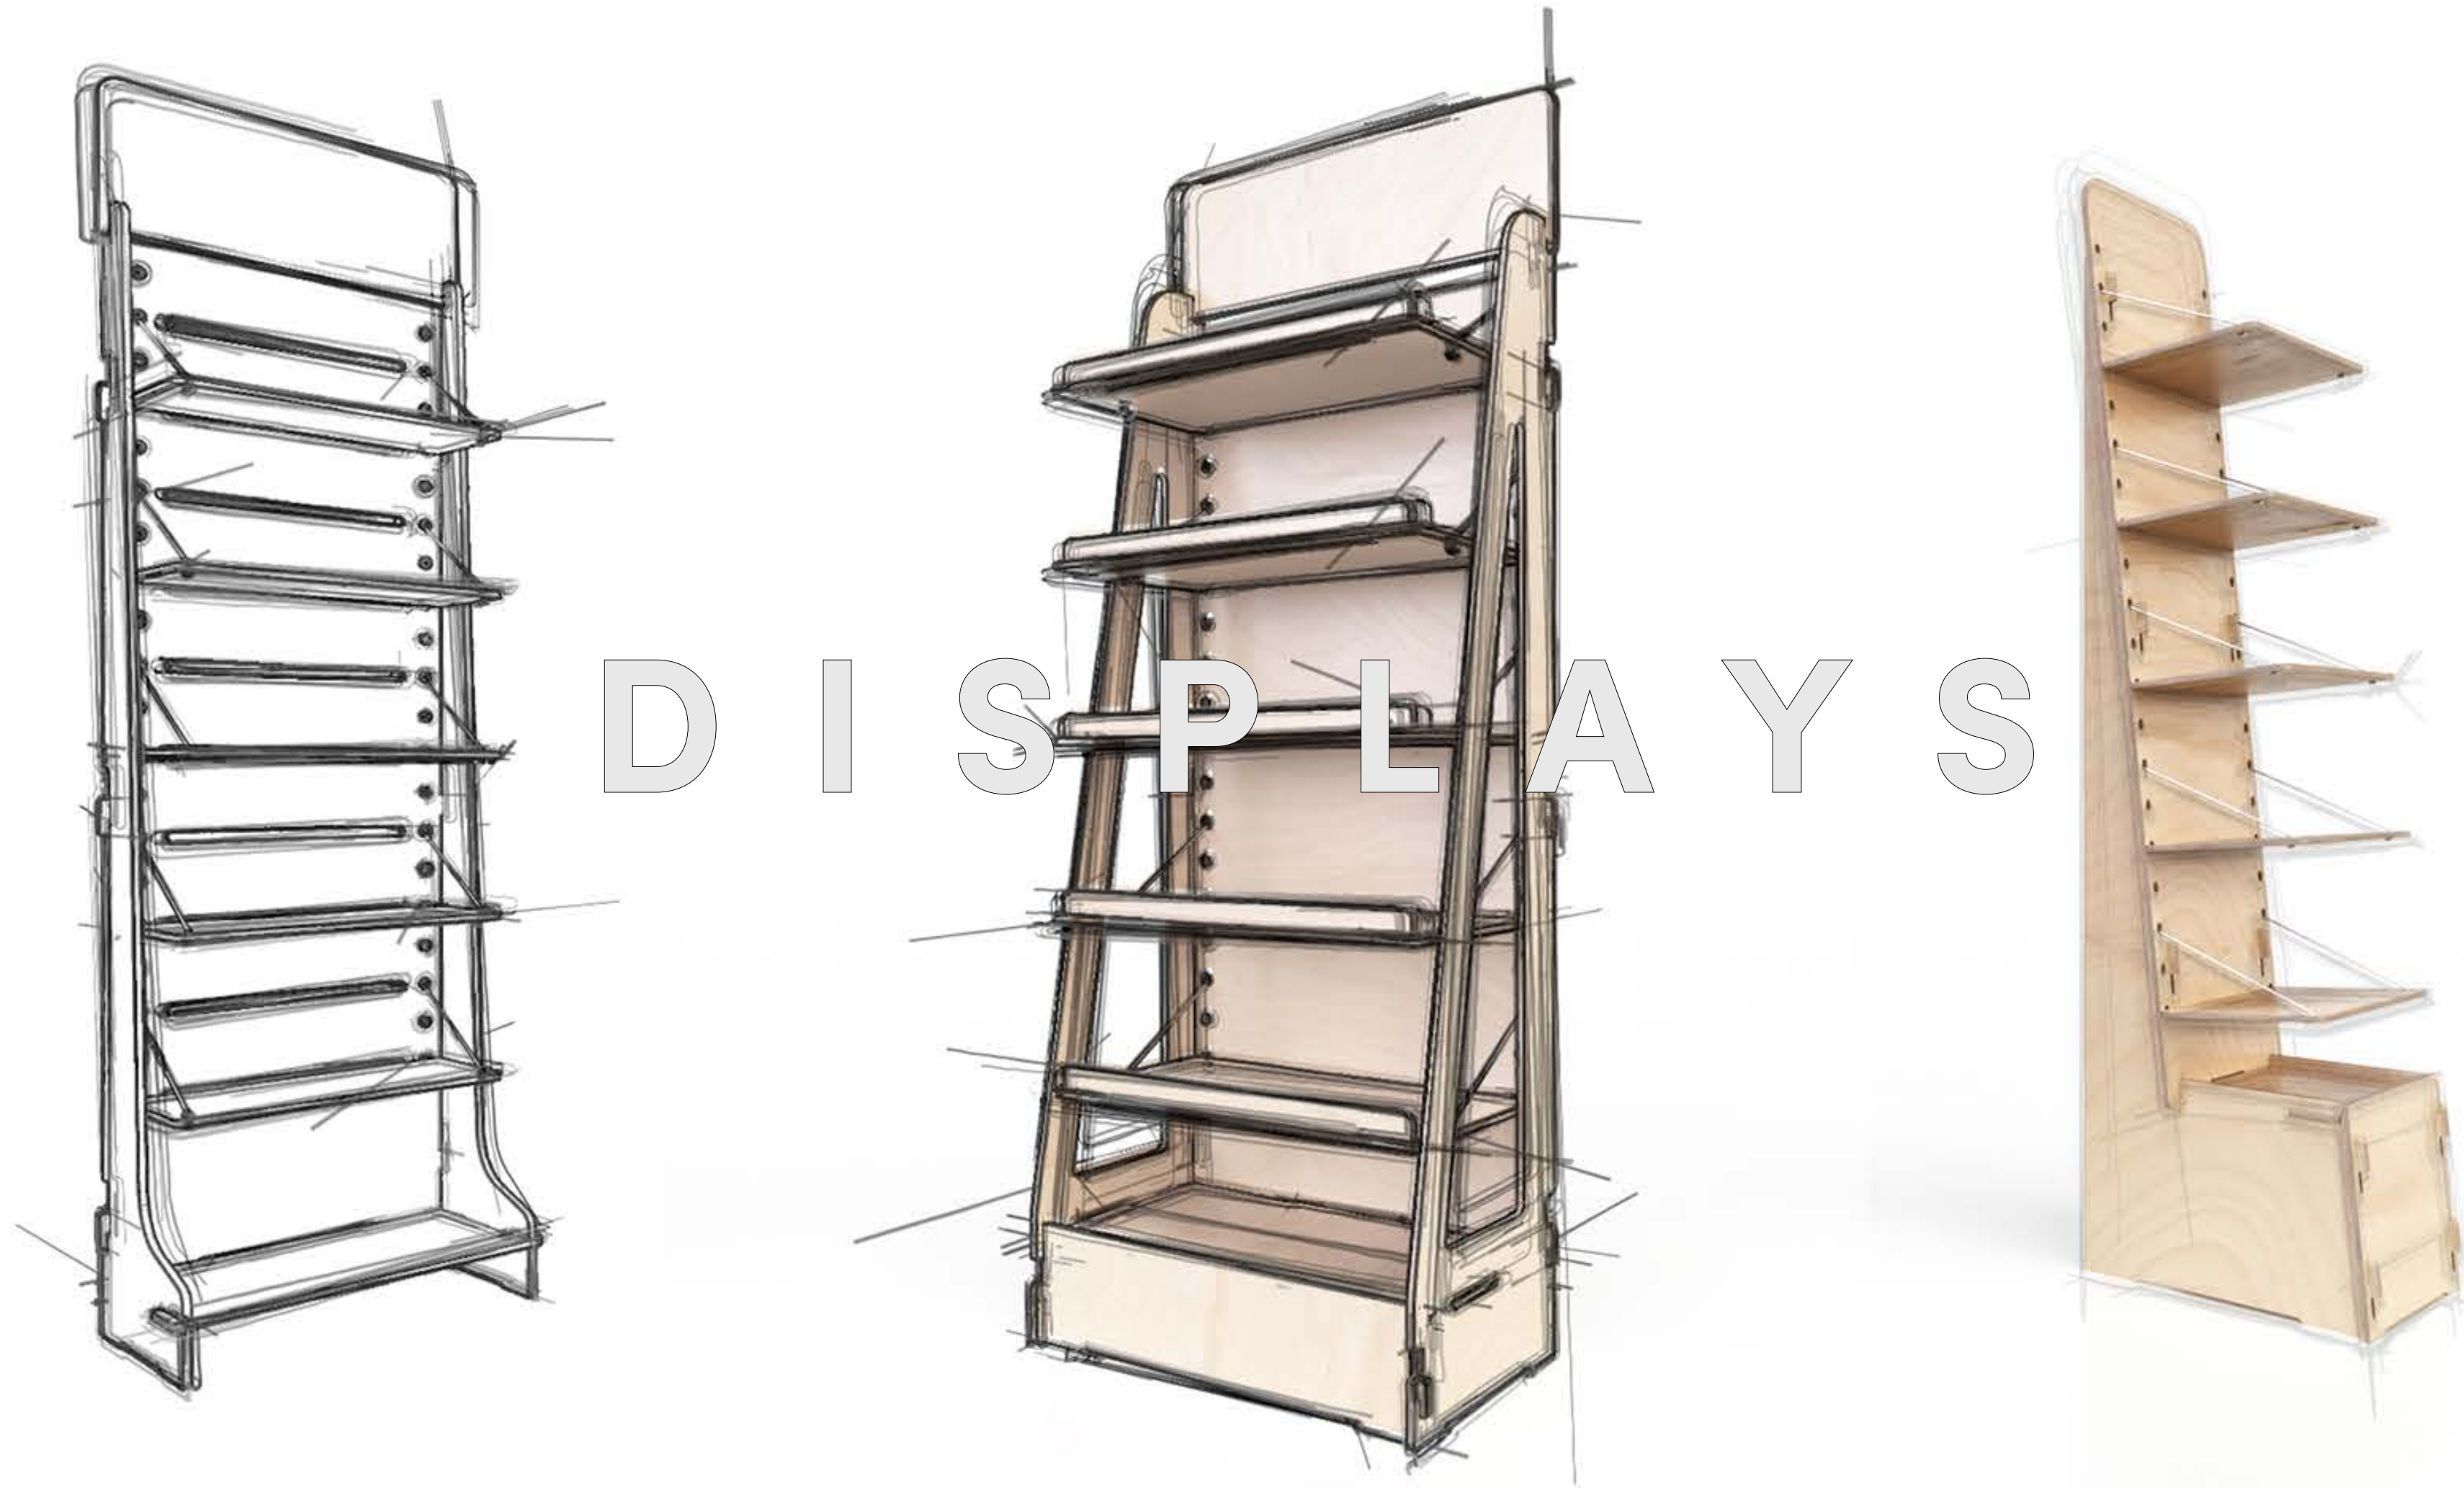

The natural wood creates a warm and playful atmosphere, making the shopping experience even more enjoyable.

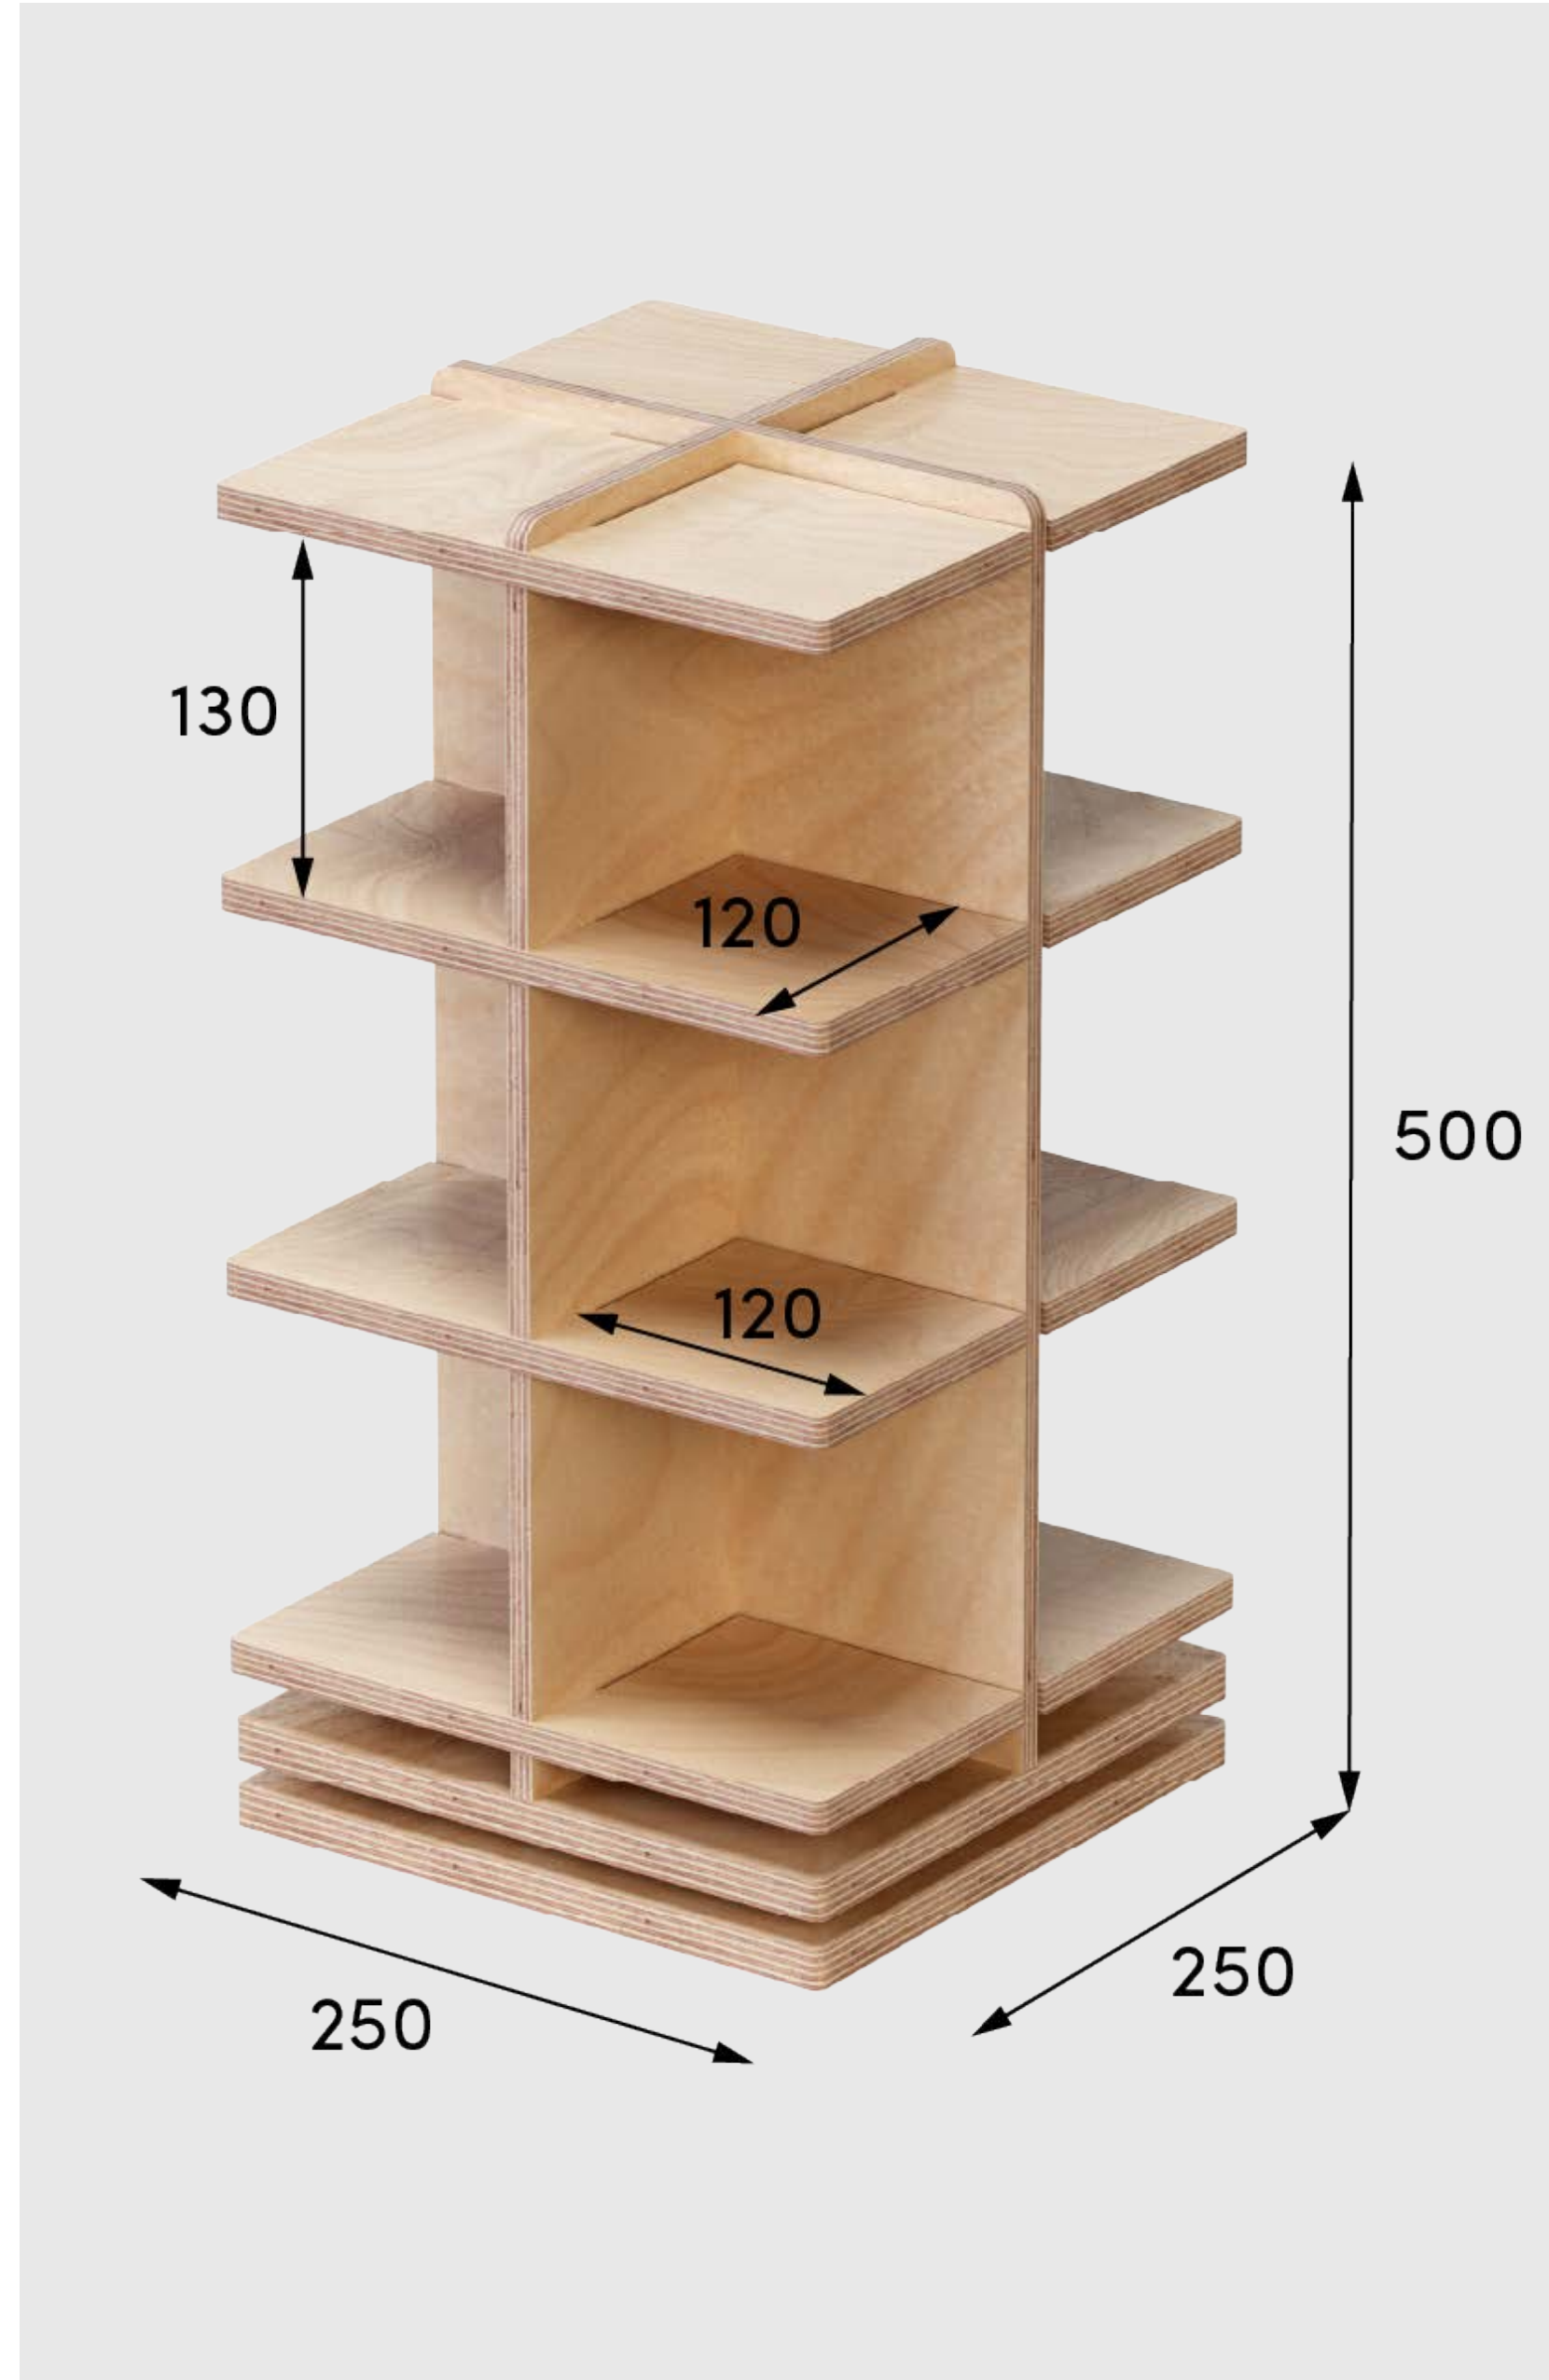

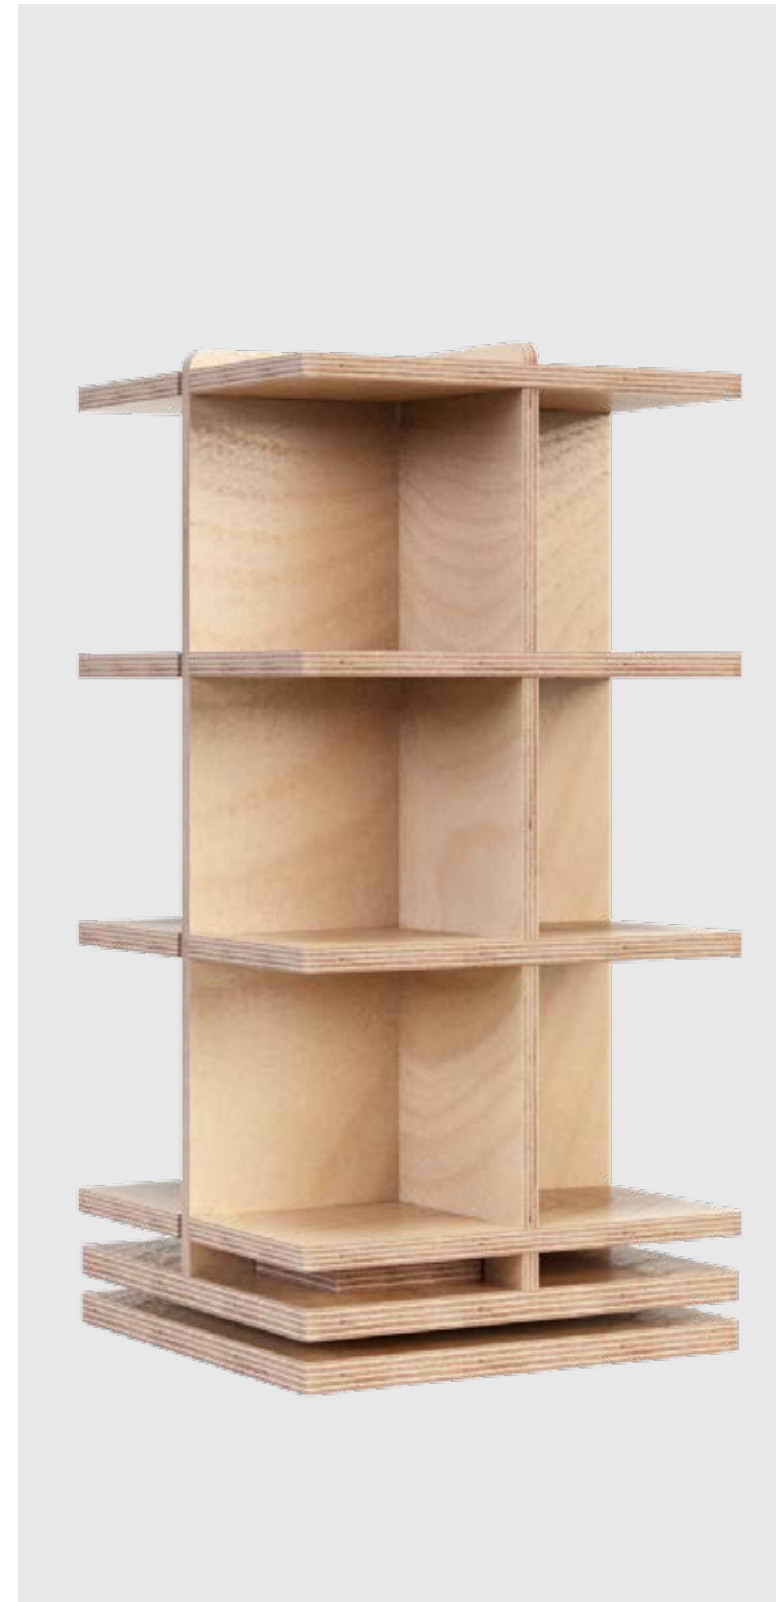

Thanks to their modular design, these displays allow you to efficiently organize a variety of toys and games in different shapes and sizes, adding a touch of natural charm and familiarity.

Offer your customers a memorable and sustainable shopping experience!

# CUSTOMER REVIEWS

"The willingness to listen and the delivery of quality products enriched by a dedicated personal service and excellent construction and industrialization of the goods have made Esposit a supplier with whom it is possible to work very well."

**PLAYWOOD**  
*Managing Director*

"I found Esposit to be a very professional, precise and punctual company. They supported us with a continuous assistance service and followed us in all the design steps. We can consider ourselves very satisfied."

**JURATOYS ITALIA**  
*Marketing Manager*

"Esposit has proven to be a key supplier in the development of our wooden displays with wheels. Together we have identified the optimized dimensions of the supports, the layout, the best display method for our products and also the best packaging solution to preserve the product and minimize shipping costs."

**HERBAL PRODUCTS**

"Esposit offered us a 360-degree service. Reliability, quality and availability combined with a high attention to detail, are the qualities that we appreciated most. We can consider ourselves very satisfied with the result obtained."

**FERRERO**  
*Trade Marketing Manager*
